From the desk of the Garrison Commander

Commander discusses policy on water usage

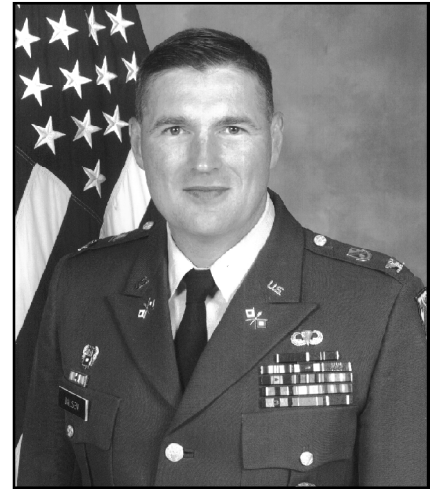

Hello all,

Shown printed below you will find our new water conservation policy. We believe that you will find it easy to implement without causing anyone a great hardship.

We are subject to the same water policies as our surrounding communities. At this time Cal-Am Water utility, our supplier to the Presidio of Monterey, has enacted Stage Three which means that we and every other recipient of Cal-Am water will get charged an exorbitant rate for any usage above our standard supply. The only problem is that the standard

supply has been cut as well because of past excesses.

The supplier of water to the Ord Military Community (Presidio of Monterey Annex) will follow suit in the near future, so we are adopting a policy which is applicable for all. If in fact we get charged a higher rate, then we have to use scarce budget dollars that take away from many of the other projects we are working to improve our quality of life. Let's all cooperate to implement this new policy, be good neighbors with our surrounding communities, and ensure that our budgets are there to continue to

improve our quality of life.
Thanks for listening.

DPW provides information on mandatory conservation plan

The California Water Resources Control Board has imposed a **mandatory water**

conservation plan for all users of the California-American Water Company on the Monterey Peninsula. The Presidio of Monterey is a user of Cal-Am and is required to comply with measures outlined below. The Presidio of Monterey Annex, though not a customer of Cal-Am, will also comply with the same water conservation goals.

This mandatory conservation program affects

all of us who live and work on the Monterey Peninsula. By becoming more aware of water consumption habits and abiding by the restrictions set forth below, residents and employees of the Presidio and POM Annex can do their part to conserve a most valuable natural resource.

Mandatory Conservation Measures

- ☐ No outside watering on Mondays, Tuesdays and Fridays.
- ☐ Even numbered addresses may water outside on Sundays and Thursdays.
- ☐ Odd numbered addresses may water on Saturdays and Wednesdays.
- ☐ Irrigation must start after 5 p.m. and conclude before 9 p.m., unless a drip system is used.
- ☐ If hand watering lawns or car washing, your hose must have a shut-off nozzle.
- ☐ Buildings, parking areas, driveways, etc. may not be washed with potable water.

Individuals may contact the Directorate of Public Works, Public Utilities staff at 242-5598, 242-6315 or 242-6317 for additional information and questions. Water leaks can be reported at the POM by calling 242-5526, or at the POM Annex by calling 242-7756 during duty hours.

Consumer affairs office provides tips for cutting back on spending

You can cut back on your spending, but it takes discipline, according to Army Community Service, consumer affairs and Army Emergency Relief Office.

The following are some tips for saving money concerning two areas to consider; telephone and transportation expenses.

Telephone

☐ Use a food timer to help limit the length of your calls.

☐ Check with your long-distance carrier about discount programs that best fit your geographic calling pattern.

☐ Consider switching to a cheaper long-distance carrier.

This can be confusing, so before you sign up for the "deal of the minute" (or other deal of the moment), compare the offered rate per minute with your actual average over the past bills. If this checks out, ask about additional available financial switching incentives, if they, haven't been offered. **Be sure to read the fine print.**

☐ Eliminate any add-on services you can do without, such as call waiting, automatic messaging, and automatic redial.

☐ Plan the topics you want to cover to avoid needing to call back.

Transportation

☐ Public transportation will also get you there, and it's usually cheaper.

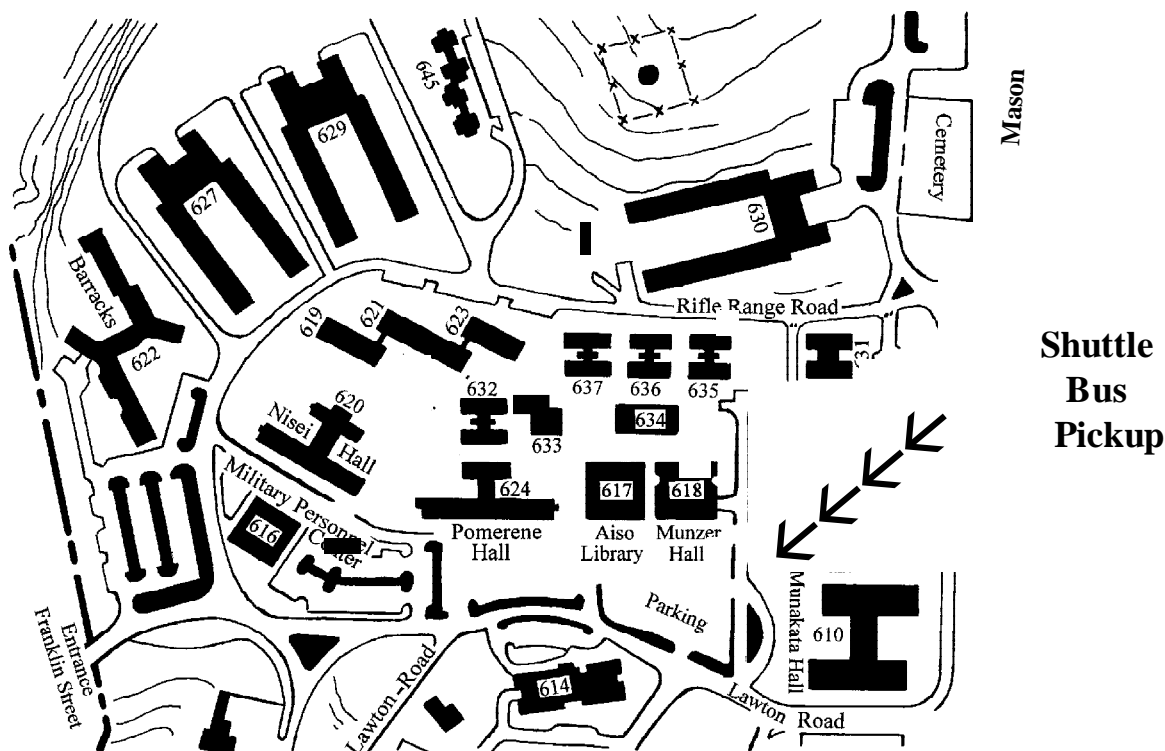

☐ Buying a car? It is always better to buy a two-year-old used car than a brand new car, since most cars incur about 50 percent of their depreciation during the first two years.

☐ Buying a used car? Better have it thoroughly checked out by a trusted mechanic. Caveat emptor: let the buyer beware.

☐ Car pools are good for the environment. If possible, start one and share the expenses instead of paying 100 percent.

For more information on money saving tips, contact the Army Community Service, consumer affairs and Army Emergency Relief Office, Building 4260, General Stilwell Community Center.

Presidio Police offer beach crime prevention tips

During the warmer months, many people go to the beach. What should be an enjoyable time often turns into tragedy when many of these people become victims of crime. The real tragedy is that many of these crimes could have been prevented by following a few simple tips.

Park your car in the beach parking lot, or as near to it as possible, if it is full. Parking on a side street away from the beach to save money could cost you much more in the long run. Thieves look around these streets watching for people to leave their cars and head for the beach. Thieves know that you aren't likely to come back to your car for hours, so they have plenty of time to break in and take what they want. Also, make sure to note where you parked your car.

Take only the keys to your car, and lock your belongings somewhere out of sight in the vehicle, such as the glove compartment.

Attach car keys to a large key chain or some other large item. This will make keys easier to find and there will be less chance of losing them in the sand.

Don't wear jewelry to the beach; it is very easy to lose. Once something like jewelry is lost in the sand, it is very difficult to find.

Don't take unnecessary items on the beach with you, such as your wallet and credit cards. You don't need credit cards or checkbooks there. Just take a small amount of money you think you will need.

When taking your necessary items to the beach, carry them in some type of beach bag. A bag that can be zipped shut is preferable, but if you have one that cannot be closed like that, be sure to keep the valuables inside covered. For example, clothing or a towel can be used to prevent a thief from having an easy view of what other items are inside the bag.

Keep your items somewhere that is close and within your view. For example, place items at your side rather than behind your back or beach chair.

Be alert for people who look suspicious or out of place, and who appear to be overly concerned with other person's actions or property.

Since it is very easy for people, especially children, to get lost on the beach, remember to check the number of the nearest lifeguard tower. This is a good reference point to help you remember where you are located on the beach.

If you go out for a walk, or to the water for a swim, ask someone near your location to watch your things while you are away.

The waters off the California coast are very cold and have very strong rip tides that may unwillingly take you hundreds of meters from the shore. Be very careful when swimming and never play on rocks or near cliffs. Many people are swept from the rocks every year due to large unexpected waves. A large percentage of these people lose their lives.

When children go to public restrooms, they should be escorted by an adult.

Don't take your dog to the beach. Your dog may be playful to you, but he can be an annoyance to others. Most beaches do not allow dogs.

Many rapes occur at the beach during the off-season, as the beach is virtually deserted. Be very cautious when using the public restrooms and try to stay near an operating lifeguard tower. There is usually a tower approximately every mile during the off season. Call the lifeguard headquarters for specific locations.

Finally, be sure to report all crimes. Whether you live locally or far away, this is important so that the concerned police department can take steps to combat the problem.

For more information on beach safety, contact the Presidio of Monterey Police Department, Crime Prevention Officer at 242-7868.

Presidio of Monterey family members have an established means to inform themselves of crimes occurring in various housing areas.

Crime Watch is the information link between the POM Police and the community. Crime Watch reports crimes that have occurred in our military community housing areas and is updated weekly. Special Alerts are also a part of the Crime Watch system and notifies the community of crimes that are of an immediate concern.
